

# Green Cult Grow Guide for Terra Aquatica nutrients

All nutrient quantities refer to one HydraMax bucket with 30 liters of water. For exact dosing, simply multiply with the number of buckets in your system.

		1st roots	1st true leaves	Growing	Flush	Pre-flowering	Flush	Flowering	Flush	Final Part® Ripening 150ml	Flash Clean® Cleaning 60ml
Easy	TriPart Grow	15ml	30ml	54ml		60ml		24ml			
	TriPart Micro	15ml	30ml	36ml		60ml		48ml			
	TriPart Bloom	15ml	30ml	18ml		45ml		72ml			
	EC (mS)	0,3-0,6	0,8-1,2	1,3-1,8		1,8-2,0		1,4-2,2		1,4-2,6	-
Expert	Pro Roots	6ml	6ml	-		-		-			
	Roots Booster	150ml	90ml	-		-		-			
	Fulvic	-	60ml	60ml		60ml		-			
	Seaweed	-	150ml	150ml		150ml		150ml			
	Pro Bloom	-	-	-		6ml		6ml		6ml	
	Bloom Booster	-	-	-		150ml		150ml		150ml	
	Silicate*	-	12g	12g		12g		12g			

The recommendations provided in the table aren't rigid rules but rather serve as valuable guidance for inexperienced growers to craft a nuanced fertilization approach. The most effective fertilization strategy is influenced by various factors including temperature, humidity, plant species, root volume, watering regimen, and more. For novice growers it's absolutely sufficient to only stick to the 'EASY' feeding dosis.

## T.A. Terra Aquatica TriPart series

The TriPart series consists of a combination of TriPart Grow, TriPart Micro and TriPart Bloom and is ideal for an introduction to the world of high-quality plant fertilisers. The products guide you through the growth process, for example by encouraging healthy root formation, strengthening the immune system and strengthening the foliage, right through to flower and fruit formation in bloom. The fertilisers in the TriPart series show their full potential through the interaction of the various components of the fertilisers and should always be used in combination.
